## A message from the Executive Director

While the push to construct more affordable housing continues, homesharing provides something different: a sustainable, community-centered solution to our current housing crisis. At HomeShare Oregon, we are committed to normalizing homesharing, fostering connections, and providing access to affordable housing for all. We want to help create resilient communities where everyone has a place to call home, and we are dedicated to leading this transformative movement.

## What do our participants need? A better way to match

To better serve our participants, we've recently acquired the matching platform, Silvernest, and have rebranded to HomeShare Online.

This advanced technology will streamline the onboarding process, enhance automation, and improve data management, enabling quicker and more accurate matches. By integrating these enhancements, HomeShare Oregon is leading the market in homesharing, providing innovative solutions that reduce the time it takes to find Oregonians affordable housing and expanding our impact across the state.
